

## Dear Reader,

The growing network of LUMS patrons spread around the world fills me with a sense of pride and gratitude. It has been through your overwhelming support that the University continues to create stories of excellence in research, teaching, and learning.

Your patronage for our signature financial aid initiative, the National Outreach Programme (NOP), has also reaped dividends. Set-up in 2001 to create opportunities for the brightest Pakistani students, it has disbursed close to PKR 400 million to date and continues its mission to make education accessible to all with

the same passion. In recognition of the NOP's impact, the Council for the Advancement of Education based in Washington, awarded it the Global Case Platinum Award in the 'Best Practices in Diversity, Equity, and Inclusion' category.

The LUMS mission is to constantly evolve in exciting new ways and provide talented students in the country a life-changing experience. Please accept my profound thanks to all our generous supporters, partners, and friends, who continue to make this transformative work possible.

## ‘Leaders at LUMS’ Session with the Masterminds Behind the Pakistan Pavilion at Dubai Expo 2020

This special session, held on May 19, 2022, brought together the masterminds behind the award-winning Pakistan Pavilion at the Dubai Expo 2020 including Mr. Shahid Abdulla, Principal and Founding Partner of Arshad Shahid Abdulla (Pvt.) Ltd; Ms. Noorjehan Bilgrami, artist, designer, and educationist, as well as the founding member of the Indus Valley School of Art and Architecture; Mr. Rashid Rana, award-winning artist and Mr. Abdul Razak Dawood, Pro Chancellor, LUMS. The discussion was moderated by Dr. Arshad Ahmad.

The session kicked off with a video that gave the audience a glimpse of the vision behind the Pakistan Pavilion and what it was like walking through its different exhibits. With its grand structure and mesmerising interior, the Pakistan Pavilion quickly gained international recognition and crossed the one million visitors mark in just five months. It also received the Silver Award for Best Interior Design and the BURJ CEO Award for the Best Pavilion Exterior Design.

All the panellists emphasised how the project was driven by the support and passion of countless people. Mr. Dawood elaborated on how all the different stakeholders came together to help execute the project. “It was for the first time, I think, a government and private sector project was executed in time and within budget. It was like a miracle, and everything fell into place. The Expo administrator said you can’t do it [in such a short span of time] but we took the risk. The creative team then did magical work and the Pavilion rose like a phoenix.”

Dr. Parvez Hassan, Member, LUMS Board of Trustees, who was also present in the audience, commented on how selecting the creative team on merit was the reason for the success of the Pavilion. “The lesson out of this whole thing is that if the process is right, the result is good. This is what needs to be highlighted more than anything.”

## Meet Hafiz Ali Naeem Sheikh: The NOP Scholar who Topped the CSS Exams 2021

The story of Hafiz Ali Naeem Sheikh (BSc 2017) is an extraordinary tale of resilience, optimism, and hope.

With a Matric from Government Central Model School, Lower Mall and an Intermediate in Pre-Engineering from Government College University, Lahore, LUMS was a distant reality for him. However, on the insistence of a friend, Ali decided to apply and take the admission test. And the rest, as they say, is history.

Ali gained admission to LUMS through the National Outreach Programme (NOP), which seeks out bright and talented students from every corner of Pakistan representing a wide range of educational and socio-economic backgrounds. The Programme provides these scholars with full financial assistance that translates into almost 140% support, covering full tuition fee, living stipend, books, boarding and lodging for their undergraduate studies at LUMS.

"I come from a humble background and without the NOP it would not have been possible for me to attend LUMS. Even if the University had asked me to pay 5,000 rupees, I would have preferred going to some government university due to financial constraints," he recalls.

The NOP Centre played an integral part in helping Ali acclimatise to the new environment; the staff provided guidance and support to settle on campus. He was advised to join student societies, and form deeper connections with people from diverse socio-economic and academic backgrounds, which helped him gain confidence.

Hafiz Ali Naeem Sheikh with Rector, Mr. Shahid Hussain, and Vice Chancellor, Dr. Arshad Ahmad

At LUMS, Ali was selected for the Near East and South Asia Undergraduate Exchange Program (NESA UGRAD), a part of the Global UGrad Scholarship Program in the USA for a year. It was during the fully funded exchange programme, Ali recalls, that he decided to pursue the civil service. "In the USA, I saw the dignity of the common man and how the state works for the betterment of people. Every official department that I visited there was so polite and efficient in solving issues of the citizens that it made me realise the gravity of the problem faced by us Pakistanis and how much apathy exists in our government offices. Thus, I used this motivation and started preparing for the CSS exams after returning to Pakistan."

Hafiz Ali Naeem Sheikh graduated from LUMS in 2017 with a BSc in Management Science

---

**"The NOP is not a scholarship but an attempt to bring change in society. Every NOP scholar has had a trickle-down effect on the communities they belong to. Through this programme, stakeholders have an opportunity to find and train talented individuals who have the desire to do something extraordinary but lack the resources to do so."**

---

Ali looks forward to creating change by serving in the Pakistan Administrative Services. He advises students to never doubt their path and maintain honesty in all their dealings. "Whatever you do in your life, always keep an eye on the bigger picture; humans are just a tiny part of the cosmos. The world is much bigger than individual egos and ambitions. Your actions should be directed towards bringing positivity to the world and helping those who are less fortunate."
