How can I allow only authenticated users to join Zoom meetings?

Protect your meetings using "only authenticated users can join meetings" setting. This option allows anyone who has a Zoom account against LUMS email id to access your meeting.

Instructions:

1. Sign into zoom.us with a zoom account e.g., zoom1.sbasse@lums.edu.pk and navigate to the meeting schedule option.
2. Enable "Only authenticated users can join" meetings in the "Meeting options"
3. Select the **LUMS** authentication profile from drop down menu.

After following the above steps, please continue with meeting Scheduling.

IMPORTANT: When students attempt to join your Session and are not signed in using LUMS email ID, will receive below message:
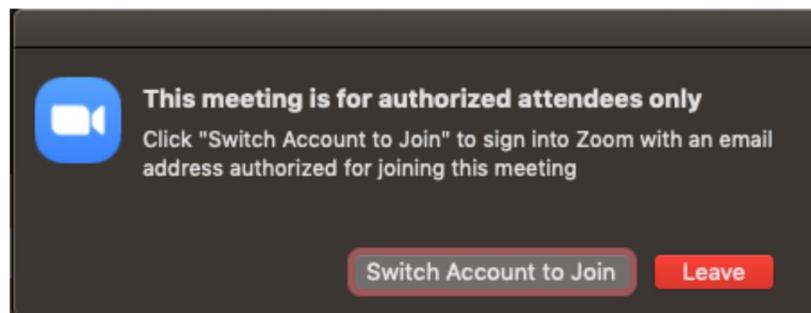

This option restricts access just to those who have s a Zoom account using an email address within the designated domains. For example, the "LUMS " option will allows only those who have created a Zoom account with the LUMS email address.
