TENDER NO. LUMS/236/2024 DATED: 20.11.2024 for Fire Detection & Suppression System for Datacenter and UPS Room

Last Date for submission of bids 02/12/2024 till 03:00pm

Opening of bids 02/12/2024 at 03:30pm

Lahore University of Management Sciences (hereinafter called LUMS) invites sealed bids for the supplies as per attached BOQ on Single stage two envelope basis.

If you have doubt as to the meaning of any portion of the specification or other terms and conditions, you may seek clarification of the same in writing from us.

You are required to submit your bid, which will bear words “CONFIDENTIAL” and

TENDER NO. LUMS/236/2024 DATED: 20.11.2024 for “Fire Detection & Suppression System for Datacenter and UPS Room

”

LUMS does not take any responsibility for collecting the bids from any agency. The requests for an extension of closing date and time shall not be entertained.

Description

Fire Detection & Suppression System for Datacenter and UPS Room

- Fire Detection & Suppression System along with VESDA/FM200/NOVEC1230 complied with requirements of NFPA 72/NFPA 75/ NFPA 2001, UL, or EN 54
- Supply of UL listed, and FM approved Automatic FM200/Novvec1230 based Clean Agent Fire Suppression System 4.55-7.2% Design Concentration including piping, cylinders, controls, clean agent gas etc.
- Personal Protective Equipment: Gas Mask, Gloves, Gum boots, Sledgehammer, flash lights, soft mask)
- Portable Fire Extinguishers /Cylinders at designated locations.

- Complete fire/ flame resistant paint on walls, roof as per EN-13501-1, EN 9001/2008
- Distributor shall be trained by the manufacturer to design, install, test and maintain the fire-alarm / -suppression system and shall be able to produce a certificate stating such on request.
- Intelligent Fire Detection & Aspiration System

Addressable Fire Alarm Control Panel.

The contractor shall provide an addressable, Intelligence Fire Alarm Control Panel and fire-alarm / suppression system to perform the following operations:

- Fire-alarm-, supervisory-, and trouble-event initiation.
- Occupant notification.
- Event annunciation.
- Local control functions.
- Fire-extinguishing-system release
- Off-premises transmission.

An advanced, cutting-edge, intelligent digital peer-to-peer modular suppression control system is required. This system should be well-suited for applications related to life safety and property protection, catering to both commercial and industrial settings. It should boast a high degree of programmability, enabling rapid data relay and the efficient execution of various process management tasks, including HVAC shutdown.

The control panel should come equipped with two Signaling Line Circuits (SLC), each capable of supporting up to 254 devices. Furthermore, it should be expandable to accommodate four loops, ultimately providing the potential for a total panel capacity exceeding 1000 devices

Addressable Multi Detector.

Intelligent photoelectric/heat, spot-type smoke sensors should incorporate sensing chambers that leverage the principle of light scattering to detect smoke. These sensors should also be furnished with dual thermistors to enable heat sensing. The design of the sensing chamber should incorporate features that reduce the impact of settled dust on sensor performance.

Furthermore, these sensors should feature tri-color LEDs that serve as indicators of the detector's status. The detector can be programmed to display LEDs in a blinking pattern or as steady green, amber, or red lights.

Sounder / Horn Strobe.

The Selectable Candela Evacuation Signals consist of low-profile devices, including horns, strobes, or horn/strobe combinations, designed to provide reliable audible and visual alarms while consuming the least amount of current. The Selectable Candela Evacuation Strobe Horn/Strobe at 24VDC is capable of offering field-selectable candela options, allowing choices of 15, 30, 60, 75, and 110 candela. For the 12VDC model, it provides selectable candela options of 15, 30, 60, and 75 candela.

Selectable Candela Evacuation Signals should have a minimal operation current and a minimum flash rate of 1Hz regardless of input voltage.

Manual Call Point.

Intelligent Manual Pull Station should be a state-of-the-art, dual-action (i.e., requires two motions to activate the station) pull station that should include an addressable interface (mounted inside) for fire alarm control panels. Because the pull station is addressable, the control panel should display the exact location of the activated device. That could lead fire service personnel quickly to the location of the alarm. The isolator should provide complete short circuit isolation as per NFPA 72, Style 7 wiring.

Mandatory Eligibility Criteria

- (i) The Bidder must be duly registered to conduct its business in Pakistan for at least 15 Years.
- (ii) The Bidder must have an established/registered office in Lahore Pakistan.
- (iii) The Bidder must be listed on the Active Taxpayers List (both Income and Sales Tax) of the Federal Board of Revenue.
- (iv) The Bidder is not insolvent, bankrupt and has not been blacklisted or debarred by the public procurement regulatory authority or any government, semi-government, private, autonomous body, or any other international organization and is an active taxpayer and has submitted its tax return forth preceding fiscal year.

Warranty, Support & Trainings

- Comprehensive onsite 24-month warranty
- Local Training for 3 resources. Accommodation, boarding, and lodging/local traveling expenses will be borne by the vendor
- At least one visit every quarter to check and maintain the system.
- Responsibility matrix sharing for problem reporting/ escalation.
- Complete installation & configuration in all aspects.
- 20% of the amount will be withheld until the project and training is completed satisfactorily.

Important Notes:

- The bidder must conduct a comprehensive survey to gather the requirements before proposing the system.
- Proof of Concept (POC) may be required from the vendor before the issuance of a Purchase Order by LUMS.
- The vendor will be responsible for the installation/deployment of the proposed system and equipment after delivery, and all the relevant expenses will be borne by the vendor.

- A partial solution will not be accepted; only the vendor with a complete solution will qualify for technical.
- The criteria for the issuance of PO will not only be the lowest price and the product stability, compatibility, specifications, and features mentioned in the tender.
- Only new hardware is required; repaired or refurbished devices will not be acceptable.
- A special educational discount is expected from all the vendors.
- Quantities can be changed depending on budget and availability.
- Proof of technical competence of the team engaged in deployment, along with their profile/certificates, must be included in the proposal.
- Price must be specified in terms of unit cost of major hardware/software components.
- The release date, end of sales, support, and life of all components must be specified.
- The solution provided must be officially verified by the principal and must provide the MAF.
- All the vendors must perform requirement gathering first and submit the technical & financial proposal accordingly. Any loss because of incompatibilities with existing systems/solutions will be borne by Vendor/Principal.
- For further technical information/clarification, you may contact IST if required.
- Vendor must deliver and install the Product at LUMS.

LUMS will open the bids, in the presence of Bidder's representatives who choose to attend at 11:00 am on the date already mentioned above, in the Procurement office.

5. Evaluation:

- a) After opening of bids, LUMS will examine the bids for technical evaluation and completeness of the bids as per tender document.
- b) The bids shall be evaluated on the basis of "Technical proposals" and "Financial Proposals" as under:
 - (i) The envelope for "Technical Proposals" will be opened initially in the presence of the bidders.
 - (ii) The envelope for "Financial Proposals" will be retained unopened.
 - (iii) The "Financial Proposals" envelope of technical responsive bidders will be opened in front of technically qualified bidders after the technical evaluation. The "Financial Proposals" envelope of technically non-qualified bidders will be returned unopened to the bidder.
- c) Bidder(s) who do (es) not qualify cannot challenge the findings of the evaluation or ask for reasons of disqualification.

6. Earnest Money:

The bidder must enclose 2% of the total quoted amount as earnest money in shape of pay order/bank draft in favor of Lahore University of Management Sciences. The tenders

without earnest money or containing less earnest money will not be accepted. Earnest money of the successful bidder will be refunded after the delivery of the goods.

7. Change in Quantities:

LUMS reserves the right to increase/decrease quantities and it will be the responsibility of the supplier/contractor to deliver the item on time and change defective items.

8. Mode of Payment:

- a) Payment terms will be credit basis.
- b) In case of advance payment first class bank guarantee or mutually accepted collateral will be provided by the bidder.

9. NTN/GST Certificate:

Bidder must mention their National Tax Number (NTN) and General Sales Tax (GST) number (if sales tax registered) and furnish a copy of NTN and GST certificate along with tender.

10. Tax Deduction:

Income Tax as per government tax rules will be deducted from the total amount unless an exemption certificate is provided from the income tax department.

11. Specification Criteria:

All bids must be submitted according to specification given in the BOQ.

12. Delivery Time:

- a) Validity period of the tender will be mutually decided from the date of placement of order. During this period successful bidders will be bound to supply the items on the rates they quoted.
- b) In case the supplier fails to supply the agreed material in time, LUMS reserves the right to reject its offer and confiscate the earnest money deposited.
- c) Delivery will be on Ex-LUMS
- d) Pre-shipment inspection will be done by LUMS if required.

13. Inspection and Testing

- a) LUMS representative shall have the right to inspect and / or test the Goods to confirm their conformity to the Purchase order(s) Specifications.
- b) Should any inspected or tested goods fail to conform to the specifications, LUMS may reject them and the supplier shall either replace the rejected goods or make all alterations necessary to meet specification of LUMS. All costs incurred on such replacements / alterations shall be entirely borne by the supplier, failing to do so, the purchase order(s) will be cancelled and all retained values will be forfeited in favor of LUMS.

14. Quality of items:

All item(s) supplied by successful bidder should be wholesome and include all the basic accessories. The additional accessories may be included separately. The offered items(s) should not be of substandard nature.

15. Warranty:

As mentioned against each item or for the given period starting from the date of supply.

16. Penalty:

For failure to comply with delivery schedule of Purchase Order(s) penalty will be imposed on defaulting bidder as under:

- a) 1% of the cost of entire order or of such items/job as remains un-supplied/not-completed for every day up to maximum of 5% for 10 days exceeding the delivery period unless mutually agreed in writing.
- b) If the material is not supplied even after payment of penalty for 10 consecutive days LUMS reserves the right to cancel the purchase order and to obtain the required items/get the job done from elsewhere at risk and cost of the defaulting contractor. In this scenario the Earnest money will be confiscated.

17. Grievance Committee

Supplier can contact the grievance committee of LUMS if required.

18. Rejection of Bids:

LUMS reserves the right to reject any or all bids or proposals without assigning any reason.

19. Other Instructions:

- a) Bid Prices shall be quoted on Annexure-"A" and also on letter Head duly filled in, stamped and signed by the authorized representative of Bidder.
