Undergraduate Programmes

Why LUMS?

Founded in 1985 as a not-for-profit, LUMS has gained regional recognition as a leading research university offering undergraduate, graduate, and doctoral programmes through five schools of Business, Humanities and Social Sciences, Science and Engineering, Law, and Education.

Providing quality education through its rigorous programmes, the University has a fundamental commitment to critical thinking and academic freedom. Students are encouraged to analyse, ask questions, and think out-of-the-box.

The five schools at LUMS are recognised for interdisciplinary teaching excellence and research quality in Pakistan and the region. Each school offers undergraduate students a variety of majors and minors.

SDSB combines analytical rigour, pathways to professional credentials, and academic flexibility to build careers across finance, consulting, and industry in Pakistan and globally.

Students become part of the SDSB network of more than 7,900 alumni working at leading organisations.

It is the first business school in Pakistan to be accredited by AACSB International - the Association to Advance Collegiate Schools of Business (AACSB).

ADMISSION CRITERIA

At LUMS, admission is purely merit-based. It is the applicant's primary responsibility to provide complete and timely information to the Admissions Office in order to be considered for evaluation.

Students are selected for LUMS undergraduate programmes based on the following criteria:

- Academic Record
- Performance in the Admission Test
- Online Application Submission
- Online Submission of Supporting Documents
- Interview (if shortlisted)

FINANCIAL SUPPORT

Financial aid for undergraduate students includes varying degrees of tuition waivers, stipends to meet expenses, and interest-free loans.

An EXTRAORDINARY STUDENT EXPERIENCE

Excellence in teaching and learning is a cornerstone of the LUMS experience. Undergraduate education at LUMS comprises three essential features. The first is the university core courses that all LUMS undergraduates study, as these courses cover learning considered essential for all students, irrespective of their school. Second, each student specialises in a major offered by their respective school to develop depth and expertise in one field of knowledge. Finally, students also take 'outgroups' – courses in fields different from their specialisation – to acquire broad exposure to other fields of human knowledge.

Beyond these requirements, students have the choice to consider optional curricular opportunities: free electives or minors (to explore any subject of their interest on campus, offered by any school), independent study (to learn one-on-one or in small groups with faculty, focusing on a topic of their own interest), a semester abroad at an international university, senior projects, research, and many other opportunities.

These three requirements and a variety of additional choices can enable each student at LUMS to create a unique academic experience for themselves – a journey that is supported by world-class faculty with extensive experience.

SUPPORT SYSTEM

Life on Campus

The environment at LUMS fosters a sense of community and values diversity. The primary goal is to facilitate student learning both inside and outside the classroom by encouraging the exchange of ideas, creative freedom, and extracurricular activities. The community works together to ensure that students are secure and at ease, and that they enjoy their LUMS experience.

CAREER TRACKS

Your Path to Success

With a highly marketable skill set, LUMS graduates are sought after by leading national and international organisations, while others have gone on to become distinguished entrepreneurs.

With over 2,880 recruiting partners, our graduates work with leading local and international corporations.

LUMS alumni have pursued higher education from universities across the globe, and many have contributed to academia. They are also working as social entrepreneurs by establishing welfare organisations such as *Rizq, Chiraagh, Teach for Pakistan, Safe Delivery Safe Mother*, etc. Many of our alumni are also serving in the civil sector, leading policy-level changes.
