Electrical Engineering

The Electrical Engineering subject test consists of multiple-choice questions from the foundation courses of EE program. The students may choose to attempt questions from any two of the following three sections. The details of the three sections are given below:

**Section 1: Signals and Intelligent Systems:**
Signals and Systems
Control Systems
Communication Systems

**Section 2: Circuit and Electronics:**
Circuits I & II
Devices and Electronics
Digital Logic Circuits

**Section 3: Energy and Power Systems**
Electro-mechanical systems
Electrical power systems
Electromagnetic Fields and Waves
