explore the possibilities
LUMS at a glance

It has been a privilege for us, the faculty and students, to be part of LUMS, a member of the Association of Schools and Institutes of Management Education in Asia.

The University of Management and Science (LUMS) is a private, non-profit, autonomous, co-educational university located in Lahore, Pakistan. It was established in 1997 and is accredited by the Higher Education Commission of Pakistan. LUMS offers undergraduate and graduate programs in various fields including business, engineering, law, and social sciences. The university has a strong emphasis on research and provides opportunities for students to engage in cutting-edge projects.

In 2020-2021, the university had a total of 10,000 students enrolled across various disciplines. LUMS has partnerships with several international universities, allowing students to pursue joint degrees and exchange programs.

LUMS is also known for its strong alumni network, with graduates working in leading businesses and organizations worldwide. The university provides numerous resources and support for students, including career services, research centers, and state-of-the-art facilities.

LUMS innovative programs such as EMBA, MS in Finance, and MS in Management, have been instrumental in preparing students for the challenges of the 21st century. The university's commitment to excellence in education, research, and community service has earned it a reputation as a premier institution in Pakistan and the region.
Schools at LUMS

Schools of Humanities, Social Sciences & Law (SHSLL)

The School of Humanities, Social Sciences and Law (SHSLL) enjoys a strong reputation of academic and professional excellence in the region. It is the home of several departments and centres that provide a comprehensive education to students interested in the social sciences, humanities, and law. The school is dedicated to fostering a learning environment that promotes critical thinking, intellectual curiosity, and the understanding of complex issues.

School of Management (SMB)

The School of Management (SMB) offers a range of undergraduate, graduate, and doctoral programs designed to equip students with the skills and knowledge necessary for success in the business world. The school is committed to providing a rigorous and challenging curriculum that prepares students for leadership roles in the global economy.

School of Engineering (SCE)

The School of Engineering (SCE) is a leading institution for engineering education in Pakistan. It offers undergraduate and graduate programs in a variety of fields, including civil, mechanical, electrical, and computer engineering. The school is known for its commitment to research and innovation, with faculty members working on cutting-edge projects that address real-world challenges.

School of Computer Science (SCS)

The School of Computer Science (SCS) is one of the top computer science programs in the region. It offers a range of undergraduate and graduate programs in areas such as software engineering, data science, and cybersecurity. The school is dedicated to providing students with the skills and knowledge necessary for success in the rapidly evolving field of computer science.

School of Social Sciences (SoSS)

The School of Social Sciences (SoSS) is a vibrant and dynamic community of scholars and students dedicated to the study of social phenomena. The school offers a range of undergraduate and graduate programs in sociology, political science, and anthropology. R ESEARCH is critical to achieving LUMS mission of becoming a preeminent academic institution of excellence with globally competitive economic potential and socio-economic development. This research is an integral part of the management of resources. The research centre of LUMS is a vital component of the university that plays a crucial role in the process of improving and promoting students to become research-oriented and effective scholars.

SDSB Research Centres

Strategic Research

SDSB Strategic Research Centre (SDRCC) is a new initiative for the promotion of research and knowledge generation at LUMS. The vision of SDRCC is to bring together LUMS (for academia), LUMS (for industry) and the industry (for research) in a systematic and sustainable form. The SDRCC will focus on promoting research and development, management, health care, agriculture, and entrepreneurship and will work on interdisciplinary projects. The SDRCC will work with LUMS and industry partners to promote research and development in LUMS.

Executive Education

Raising Executive Development Centre (REDC)

Launched in 2001, the National Outlook Programme (NOP) is one of LUMS’s central initiatives. The programme is described as a national program that promotes and supports the development of new and innovative ideas. NOP is an initiative that is designed to help LUMS’s students to think about their future and make decisions that will benefit them.
