FAQs related to Pass/No Credit (P/NC) Policy – Undergraduate Programmes Only

1. How is this policy different from the regular Pass/Fail policy?

   There are two main differences:
   
   • In the regular Pass/Fail policy, a student had to decide whether he/she wanted to convert a course to Pass/Fail by the Drop only deadline. And once the course was converted to Pass/Fail grading, they were NOT to be converted to regular grading scheme. Whereas in the new Pass/No credit policy (which is only applicable to Spring 2020), a student may convert a course to Pass/NC until one week after the grades are in and make an informed decision.
   
   • In the regular Pass/Fail policy, there is no such thing as a “No Credit” option. This option is only available for Spring 2020. Opting for “No Credit”, means that a student will receive no credit for a particular course, but also that there will be no negative impact on the CGPA.

2. Is there a limit to how many courses can be opted as Pass/NC in this Spring semester (2020)?

   Please note that this is not the regular Pass/Fail policy, but a concession given for this specific semester (Spring 2020) only owing to Covid-19, and this is optional. That is, students can opt to use it for particular courses and not for others where they feel the grades they achieved are fine. Hence there is no specific limit and it depends solely on the decision of the student as to how many credits does he/she want to convert into Pass (P) or No Credit (NC) in this semester.

3. Will the credits converted into Pass/NC this semester count towards the 10 credit Pass/Fail limit?

   Please note that this is not the regular Pass/Fail policy. It is a Pass/No Credit policy which applies to the courses you are taking in Spring 2020 only. This is a special allowance made for students this semester owing to the Covid-19 situation, therefore, credits of the courses converted in to Pass/NC this semester will not be counted be in the 10 credit hours’ limit of Pass/Fail policy.

4. How will Pass/NC grade impact my credit hour requirements and CGPA?

   A Pass grade will have no effect on the CGPA and the credit for the course is earned, whereas NC means that the student will receive no credit for this course, but also that there will be no negative impact on the CGPA. Your CGPA will remain as it is.

5. In case I opt for the Pass/NC option, will these credits count towards DHL calculations?

   In case you opt for Pass/NC Policy, the DHL calculation will be as follows:

   Pass – Not contributing to CGPA but contributing to the total credits OR
   No Credit – Not contributing to CGPA or to total credits

   Hence, provided your CGPA and total credits meet the DHL requirements, this will not affect DHL calculations.
6. How will Pass/NC be reflected on my transcript?

A Pass grade will be visible on the transcript for the courses which will be opted as Pass in this semester (Spring 2020) only.

An NC grade will also be visible on the transcript for this semester only. In case you subsequently repeat the course, NC will still be visible on the transcript under this semester, while the newly attained grade will be visible under that particular semester.

7. If I secure a ‘C-’/‘D’ or ‘F’ grade in the current term and opt for PASS/NC, will be there be any impact on my CGPA?

According to Pass/NC policy, a student has the option of converting C- or below grades into NC. In case of NC, credits will not be counted and there will be no impact on CGPA.

8. I applied for a course to be considered Pass/Fail during the start of the semester. Given the circumstances, will I be able to view my grade and then decide if I want to make it Pass/Fail, or can I opt for the Pass/No Credit option at that stage?

Owing to the current situation of COVID-19, it has been decided that the regular Pass/Fail policy will not be applicable in this Spring Semester 2020. You will receive letter grades for all the enrolled courses and grading will be done as usual. Once the grades are in, individual students will have the chance, within to 1 week after grades are visible, to convert their grade to Pass or No Credit if they wish.

9. Will credits opted as Pass in this Spring Semester 2020 count to fulfill minor requirements, keeping in view that for fulfilling minor requirements certain CGPA is required to be maintained?

Since this is a special allowance made for students this semester owing to the Covid-19 situation, you may convert a course into Pass/NC that contributes towards the minor requirements. A Pass grade will have no effect on the minor GPA but the credits for the course will be counted towards the minor requirements.

10. What if I get a grade below C and I opt for No Credit Policy? Then, is it compulsory for me to repeat the course considering it is not my core course?

If you get a grade below ‘C’ (such as ‘C-’ or ‘D’) you have the option of keeping that grade, and the credits. Alternatively, you may opt for NC instead of the grade. You would also opt for NC if you obtained an ‘F’ grade. In these cases, opting for NC would have no impact on your CGPA, but the credits would not be counted.

If the course is not a core course or part of your graduation requirements in some way, you will not need to take it again.

11. If I opt to convert a core course into Pass/NC and manage to pass the course by attaining C grade, do I have to still repeat that course in future?

A course will be considered as Pass if the grade attained is C or above. Therefore, in case of choosing Pass in place of ‘C’ grade, there is no need to repeat it, and nor will you be allowed to, as you will receive the credits for it.
However, if you attain ‘C-’ or below, and opt to convert the course to NC (No Credit), you will not receive credit for it and MAY have to repeat it in future if it is part of your graduation requirements, for example, if it is a major core course, major elective, university core or falls in the mandatory requirements of your pre-defined curriculum. Repeating a course falling in the free elective bin is optional.

12. I am currently on an exchange semester. If I score a ‘C’ in my course taken at the host university, will any kind of relief be extended in terms of transferring this course to LUMS?
As per the standard transfer policy at LUMS, a course is only transferred if the attained grade is ‘B’ or above. But due to the current pandemic, the university has decided to relax this requirement only for Spring 2020. Hence, exchange/visiting students will be able to avail the Pass/No Credit policy at LUMS for Spring 2020 upon their return to Pakistan after providing evidence of courses they have completed. The credits may be transferred (via the Pass option) if a grade ‘C’ or higher has been achieved by them, and none will be transferred if a grade lower than ‘C’ is obtained and the NC option is selected. There will be no impact upon their CGPA in either case.

13. I am currently on an exchange semester. My host university has implemented a Pass/Fail policy for all students whether they are full time or exchange. If I get a Pass in the course taken at my host university, will that be transferred?
Due to the current unusual circumstances, if your host university is providing you with a Pass grade on your transcript, your grade will be transferred to LUMS as Pass. This is only applicable for courses taken in Spring 2020.

14. I am repeating a course in which I secured a ‘C-’ in my previous semester. In this semester, if I get a ‘C’ or above grade then as per Pass/NC policy, can I opt to convert it into Pass? Will this Pass grade replace the previous ‘C-’ or below grade?
Yes, if you get a ‘C’ or above grade in the course that you are repeating this semester, then you may opt to convert it into Pass grade. This Pass grade will replace the previous ‘C-’ or below grade. However, please note that in case of Pass grade, the credits of repeated course(s) will count only once towards successfully completed credit hours.

15. If I replace a lower grade with Pass in this semester, will it affect my CGPA?
Yes, in case of replacement, the impact of former obtained grade will be removed from the CGPA. It is suggested that you should first see the effect of this semester’s grade on the CGPA, as it might be better to replace the previous grade with the new one as opposed to opting for a Pass.

16. If I opt for Pass/No Credit policy and convert a major core/elective OR In/Out group course as Pass in Spring 2020, will I have to repeat that course in future with letter grading scheme in order to fulfil my bucket requirements?
Please note that in case you opted for Pass/No Credit policy in Spring 2020 and converted a course to Pass, you will not be expected or allowed to repeat that course in future. But since this is not the regular Pass/Fail policy and you will receive credits for the passed course, it will still satisfy the respective bucket requirements.
17. What will happen in the event that I do not perform well in a core course or pre-requisite course and opt for NC this semester? Will I be able to repeat it in the next semester?

You will be able to repeat a course taken as NC in the future when it is next offered. Please note that all courses may not be offered in the next semester, and if it is a core or important pre-requisite course, this could lead to a delay in your graduation.

We suggest that you work hard and try to attain at least ‘C’ in such a course, so that it may be converted to Pass; alternatively you can opt to keep the grade if it is C- or D rather than opting for NC. In both these cases you will receive the credits for the course and can take the subsequent courses. Only in the case of an F grade should you opt for NC, so that it does not adversely affect your CGPA.

Disclaimer: Various options to facilitate students in the best possible way are still being worked out by the University hence these questions are subject to amendments. We will keep on adding on more questions as things get finalized.
